Acoustic Hubs

Privacy can be difficult to find in a modern, open plan office. From the smallest hub, which is like a telephone booth and adequate for one person, to the largest which can accommodate groups, our acoustic hubs can be adapted and customised to fit your own office requirements, creating multiple working zones in one place. The ability to create a mix of diverse workspaces and areas means that a business can create balance for its workers, thereby optimising their potential productivity and output.

Priva Workstations

The loss of private space and an inability to concentrate in an open plan work area has inspired the design of the Priva angles workstations which can be configured to specific needs and support individual work zones. The rich repertoire of geometric shapes can be positioned to suit defined spaces, allowing individuals to concentrate and complete focused tasks in a private space within the workplace environment.
