your complete educational solution....

As a family run business, well established within the office furniture and education industry, we understand the importance of excellent service and reliability for all your educational product needs.

We are based in the heart of Devon, and have an additional distribution depot in Halifax, West Yorkshire, which positions us comfortably to cover and service all of mainland UK. Wherever you are in the UK, we can provide friendly, professional advice on all our educational products and unique installation and delivery service.

Our team of staff are trained to the highest standards and our aim is to keep your purchasing experience as hassle-free as possible for you...from selecting which school products you need, to receiving delivery by one of our own fleet of vehicles and dedicated fitters, who will fully install your furniture at no extra cost.

"Cutting cost, not quality" is our main aim – helping to allow your "budget to stretch further" without compromising on quality, choice, durability or reliability. Where possible we will provide products manufactured within the UK, and are strict to ensure that where necessary all educational supplies conform to regulations and certification standards.

So whether you need our expertise with planning and fit out for a brand new school, or just looking to replace any existing furniture, we are ready and waiting to take your call.
