# SEATING

We've got your back

### Headrest

Additional support for the long term user that requires further head and neck support.

### Lumbar Support

The most critical area of the S shape spine is the lumbar. We have fixed and adjustable lumbar support options, the latter either operated by twist grip or inflating bulbs.

### Seat Tilt

This will give the user a rocking action that can be tension adjusted. This can also be locked in a variety of positions when coincided with a lock/tilt mechanism.

### Levers

All our levers are ergonomically shaped and placed for ease-of-use.

### Castors

All our swivel chairs have twin wheel high impact castors. This ensures they run smoothly over the average eight miles they travel each year.

It is one of the very few areas in the office that will provide an improvement in health and efficiency.

Seating has developed massively even in the last decade. Now users weight, build, usage and tasks all contribute to finding the right product.

Feature-rich posture, task, ergonomic, operator, heavy duty and 24 hour chairs all provide outstanding support and comfort - and that translates to more efficiency at work.

This guide helps explain some of the features that make our chairs the envy of our competitors.

### Backrest

Backrests are available as either fixed or adjustable to provide a variety of options.

### Armrests

Armrests can be static loop style or height adjusting to fit each individual user. Further options include flip back or folding arms that can be easily stowed.

### Seat Slide

Users with longer or shorter legs often chose to use a seat slide for the optimum seating position.

### Seat Height

A gas lift strut makes adjusting chair height easy. Lifting the lever releases the automatic gas piston and allows the chair to rise.

# Movement and Product icons

## **GAS HEIGHT ADJUSTMENT**

Power assisted gas safety lift to raise height of seat.

## **KNEE TILT**

Scissor shaped forward mounted tilt, tilts chair from the back of the knee; avoiding pressure points.

## **RATCHET BACKREST**

Drop the backrest to the lowest position and as you lift it to different heights, it locks on a ratchet.

## **HEADREST**

Provides support to head and neck muscles.

## **SYNCHRONISED TILT MECHANISM**

Backrest and seat recline together with approx.. 2.5:1 ratio in free float or locked action.

## **ANTI-SHOCK**

Prevents user being thrown forward when back or seat adjustments are released.

## **ADJUSTABLE LUMBAR SUPPORT**

Enhances lower back comfort with variable support feature.

## **ADJUSTABLE HEADREST**

Headrest moves for optimum support and comfort.

## **SEAT ANGLE ADJUSTMENT**

Seat angle is adjusted by a lever to meet ideal sitting position.

## **AUTO TILT TENSIONER**

Automatically adjusts the tension on tilt mechanisms to suit individual needs.

## **INTEGRAL LUMBAR**

A lumbar support within the chair to support lower back.

## **STACKING CHAIR**

Chairs that nest within each other to easily store.

## **ADJUSTABLE OR FREE FLOAT BACK**

Back can be locked; or can be free to float at any angle.

## **TILT TENSION ADJUSTMENT**

Alters the amount of pressure required to tilt a chair depending on weight, build or preference.

## **FIXED ARMRESTS**

Provides forearm support for mouse and monitor users.

## **POSTURE SEATING**

Chairs designed & engineered to provide supreme comfort, support & health-improving features.

## **INDEPENDENT SEAT & BACK**

Seat and backrest can be locked in any position independently of each other.

## **SEAT SLIDE**

Adjusts the seat depth to fit your lower body and reduce any pressure trap points.

## **HEIGHT ADJUSTABLE ARMREST**

Armrests with various heights for better forearm support and comfort.

## **WEIGHT**

The maximum weight is stated in the icon, typically 125kgs. We also have heavier ratings up to 222kgs.

## **INFINITE LOCK MECHANISM**

Lever adjusts seat and back angle as one, lockable in any position.

## **SEAT DEPTH ADJUSTMENT**

Change the seating area for larger/smaller size to suit longer/shorter legs.

## **FOLDING ARMREST**

Arms that can fold away to enable users to get closer to desk.

## **USAGE**

Most chairs are rated to perform on an eight hour working day. Some upgrades see the rating increase to 24-hour for multiple users using the same chair.

## **LOCK TILT MOTION**

Lever locks chair in upright position, or allows free tilting movement.

## **HEIGHT ADJUSTABLE BACKREST**

Allows variation of back height to suit different builds and preferences.

## **ADJUSTABLE ARMREST**

Sometimes called a 3D arm they adjust for height, width and depth providing ultimate personalisation.

## GUARANTEE

All chairs are guaranteed a minimum of two years. Higher grade options have three & five years

Products with a two year guarantee encompass a two year guarantee on mechanical parts and one year on upholstery.

Products with a three year guarantee encompass a three year guarantee on mechanical parts and one year on upholstery.

Products with a five year guarantee encompass a five year guarantee on mechanical parts and two years on upholstery.

## BESPOKE UPHOLSTERY

Any product that includes this icon denotes that it can be upholstered in a variety of materials and colours.

# POSTURE SEATING

---

More working hours are lost through back pain and poor posture than for any other reason.

In the UK alone it is estimated that a total of 8.9 million working days were lost due to work-related musculoskeletal disorders in the most recent statistics.

In each case that amounted to 17.6 days off work. It was 35% of all days lost due to ill health in 2016/17. (Source Office National Statistics).

Our innovative, stylish, high-quality posture chairs are designed to provide outstanding support and a high level of adjustability.

This enables you to get the chair to 'fit' your best sitting position.

Every chair in our posture range has multiple functionalities. This allows users to set the chair up for the ideal sitting experience depending on height, weight, build and usage.

Posture seating is an investment in efficiency and comfort. More crucially it is an investment in good health.

## Chiropractor endorsed chairs

It takes a very special design to win the approval of one of the UK's top specialist chiropractors.

Leading healthcare professional Robert Bateman has tested and endorsed our posture chairs. As a chiropractor, he can only practice in primary health when fully qualified and his profession is continually regulated by law.

Dr Bateman comments:

*"Back pain is currently the largest reported reason for sickness absence. The staff that use a chair promoting good posture with*

*the correct support will be more productive and efficient with a noticeable increase in customer satisfaction and decreased absence levels. The correct chair is not an expense; it is an investment in your bottom line profitability."*

Robert Bateman  
Chiropractor specialist

# POSTURE SEATING

# Chiro Plus

Equipped with a sophisticated anti-shock synchronised reclining mechanism the Chiro Plus can be perfectly adjusted to suit your personal requirements.

Each chair features backrest height and seat slider depth adjustment. They also have 3D arms that adjust by height, width and lateral planes.

Sculpted seat and back cushions create an unrivalled comfort zone.

The fully adjustable twist grip lumbar support on the upgraded Chiro Plus Ultimate options provide supreme lower back support.

If posture and health are important to be assured - you are in good hands with the Chiro Plus range.

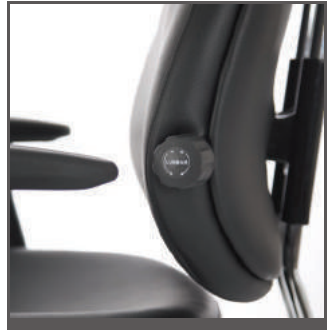

# Chiro Plus Ultimate Leather

- Equipped with dual adjustment lumbar support for ultimate comfort
- Synchronised tilting mechanism is lockable in multiple reclined position
- Multi-position arm pads help prevent repetitive strain injury

# Exo

The Exo features unique vertebrae inspired multi-flex back design for total user support.

Fully loaded with advanced features this hybrid task executive chair provides outstanding comfort.

The stunning design of the Exo is deliberately intended to mirror the strength and flexibility of the natural human vertebrae.

It has a unique multi-flex ribbed support action and weight sensing auto recline mechanism.

Soft-touch adjustable arm pads, an adjustable depth seat and large mesh headrest complete the package.

The Exo conforms to the tough BIFMA testing for durability, comfort and safety.

# Spry

The Sit-Stand desking experience is the new, healthy way to work.

The Spry “active seating” experience is a unique new seating concept to also provide better health within the workplace.

Large central column pivots in every direction creating a living movement action. The self-centred hub joint delivers the unique rock and roll movement that encourages subtle muscle movement and increased blood circulation for the user.

Spry features discreet auto height adjusting buttons under the seat which incorporates an ergonomic kick-back plate for extra comfort.

Distinctive upholstery options make this seating development the ideal option for better health and comfort at work.

# Spry

- Distinctive positive angled design
- Grab handle & kicker back support
- Dual foot stability
- Partners perfectly with Air Sit/Stand -

## TASK & OPERATOR

---

Modern offices have never had so much expected of them. They are vibrant, bustling spaces where efficiency can be the difference between success and failure.

Quality seating solutions are unique in the workplace. They are one of the very few items that not only positively reinforce efficiency, they can provide users with health benefits as well.

Our task and operator chairs fulfil a variety of functions, styles and price points within the hectic workplace.

Crucially they ensure office users have comfort and the right performance to help them achieve what they need to.

# Relay

The Relay chair range has become one of the most specified task chairs in the UK.

This cost-effective design has been copied but never equalled. This, the original and still best Relay, makes an immediate statement with its accented base and gas lift and silver detailing on the flip back armrests.

A cool vented back is finished in a choice of silver or black breathable mesh.

A tension adjusting recline and tilt lockable action complete the crowd-pleasing package.

No wonder it is such a popular choice for all office environments.

# Relay Airmesh

# HEAVY DUTY

---

We come in all shapes and sizes, but why compromise on style and comfort?

All operator seating is tested for users up to a maximum weight rating of 32stone / 203kg. 'Heavy Duty' products can cater for users of a weight of up to 32stone / 200 kilos.

Product components within this category generally feature:

- Increased thickness/gauge of steel for the mechanism
- Upgraded gas stem and castors
- Generous seating and back panels
- Thicker foam

# EXECUTIVE SEATING

---

Never has more been asked of the modern-day executive. They must operate at peak efficiency, often for long hours and often in a stressful environment.

From mid-managers through to top executives the tasks performed are varied and demanding.

Having stylish, comfortable seating that supports the user consummately and offers a variety of functions is crucial to achieving optimum performance at work.

All chair options perform like no others.

# EXECUTIVE SEATING

# Zure

Boldly going where no chair has gone before, the Zure takes you to a new comfort destination.

Our unique range of this distinctive, uber stylish posture perfect seating solution has it all. There is fine mesh, fully upholstered, partly upholstered and stunning flexible elastomer options.

The seat and backrest are carefully contoured to provide maximum comfort.

The high quality outer skeleton wraps the user in touch point technology.

Padded arm rests on the fabric and leather options provide pleasing eye-appeal whilst the elastomer versions have colour coded armrests.

The polished aluminium base houses highlighted castor detailing.

# Zure Orange Elastomer

# Xenon

Elegant white or black acrylic shells cradle the most stylish of executive chairs – the Xenon.

The shell swoops down from the generously proportioned backrest to integral slim shaped arms which fold around to the underside of the seat shell.

A high-quality knee tilt ensures maximum comfort and avoids discomfort through upper leg blood vessel constriction.

High density moulded foams and an integral contoured lumbar support add to the easy-seating package.

A brushed aluminium five-star base continues the focus on sophisticated styling at ground level.

# Xenon Black Shell Leather

- Quality knee tilt mechanism with tilt tension
- High density moulded foam seat and backrest
- Integral contoured lumbar support
- Tension adjustment on tilt action

# Chesterfield

The Chesterfield oozes classical elegance and epitomizes a quality of craftsmanship rarely experienced these days.

Crafted from solid wood and with a deeply buttoned and creased leather face our traditionally styled Chesterfields look at home in domestic, urban, country or eclectic office settings.

Retro chic design styling extends to the soft pads on wood arms, seamed piping and a five-star wood base.

A lock tilting function is included with weight tension adjustment for additional comfort.

## **VISITOR & CONFERENCE**

Meetings. Love them or not they can often be where the best businesses are forged.

In the modern, inclusive office it is rare that companies are always the product of one person.

The age of the specialist and collaborative thinking means we all need to harmonise to get the best out of our collective efforts. And that is where the well constructed, effective meeting comes in.

So whether you are discussing the next sales and marketing campaign, negotiating a new deal, working through some tough commercial details or developing new internal ways of working being on your top game in a meeting is crucial.

Our comfortable, practical and stylish seating options will keep you refreshed, engaged and comfortable.

Our designers have created a portfolio of seating solutions that fit every requirement and budget. They are there to ensure your meetings are meaningful.

# AGILE SOFT SEATING

---

Workspaces are changing dramatically. We spend more time in them, more is expected of us when we are in them and we engage in a more varied interaction with colleagues than ever before.

They tear down the barriers sometimes created by traditional desk/visitor location and instead foster a more collaborative scenario where creativity and solutions based debate is achieved.

Our soft seating range is hand-made in the UK incorporating quality features such as hardwood frames from eco sources, high density reflex foams, heavy-duty webbing suspension and high specification designer fabrics.

You can choose from a variety of no extra cost feet and leg profiles and add extras such as power and USB charging ports.

# Napa

The Napa suite of seating features the highest quality English craftsmanship.

Skilled woodworkers fashion hardwood frames to create a base on which they place resin bonded panels, heavily elasticated webbing suspension and high-density foams overlays.

All upholstery features double stitching for strength and neatness.

There is a choice of stylish brushed aluminium or hard or light wood legs.

Napa comes as a single large chair unit, a generous double sofa or a swivel chair version.

It is pictured here with a complementary Ottawa table.

Napa Slim Arm sofas are pictured with an Ottawa bench both in Ultima Chalk and with tri-chrome feet on the sofas.

# Napa Slim Arms

- Compact sofa chair or sofa system
- Units have simple metal push-lock fasteners
- Choice of leg profiles
- Hardwood frames from sustainable eco' forests
- High density reflex foam seats and backs
